

# Ancestral Amazonian Medicine Retreats with Dr. Pío Vucetich

Summer Retreats 2025 in Waldviertel (Austria)

Retreat 1: Thu. 17.7. to Mon. 21.7.

Women Retreat: Thu. 24.7. to Mon. 28.7.

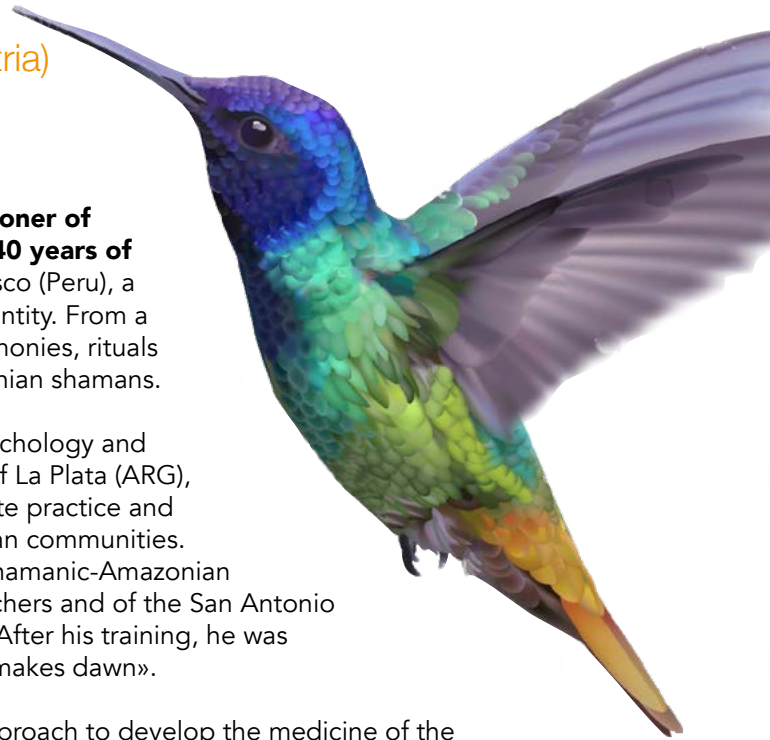

**Dr. Pio Vucetich Nuñez del Prado** is a seasoned **practitioner of Ancestral Medicine** and Psychotherapy with **more than 40 years of experience**. He was born and raised in Paucartambo, Cusco (Peru), a region with deep ancestral roots and a strong spiritual identity. From a very early age he was integrated into the traditional ceremonies, rituals and festivities, including those of the Andean and Amazonian shamans.

Later he completed his professional studies in Clinical Psychology and Psychoanalytic Psychotherapy at the National University of La Plata (ARG), worked as a Psychotherapist and Psychohygienist in private practice and collaborated with social organisations and peripheral urban communities. Simultaneously, he extended his training in the medical-shamanic-Amazonian tradition of the Ucayali River with Shipibo indigenous teachers and of the San Antonio de Cumbaza River with indigenous teachers from Lamas. After his training, he was baptised with the shamanic name of Neten soi, «he who makes dawn».

Since 1993 he has been working on a multidisciplinary approach to develop the medicine of the future, **one that integrates modern Medicine and Psychotherapy with the Andean-Amazonian Ancestral Medicine and Shamanism**. In this way, non-indigenous people can come to understand and access the experience of expansion of consciousness, taking full advantage of the therapeutic possibilities of the master plants, without altering the ancestral protocols. This approach has shown excellent results for the treatment of addictions and traumas.

Dr. Pío, as Chaka Runa, «human bridge», is the founder of [Sacha Q'ente](#), his life project, through which he offers this novel approach to medicine for the service of humanity and of [Qoyllur Q'ente](#), a reforestation project within the protected zone of the Natural Park Manu to recover lands that have been devastated by aggressive logging. Additionally, the education project [Yuyay Q'ente](#) is in its early stages and aims to build a curriculum which nurtures the mind, body and spirit of the children of the region. **These projects are the materialisation of his vision of integrating ancestral knowledge to heal the relation with oneself, others and the environment in order to leave a better world for future generations.**

We are very happy to have **Dr. Pío** hosting **these retreats in Austria** and to be able to invite you to this unique chance of transformation.

## What to expect?

- Each retreat includes 1 "Limpia" (cleansing) on the evening of the first day, 3 sessions and 3 daily interviews. Participation at the "Limpia" and all 3 ceremonies are mandatory for first time participants. The sessions will be guided in Spanish, but translation to English and German will be provided.
- All meals will be provided. Food is cooked fresh every day with organic and seasonal products, according to indications and considerations to enhance the work with medicine.
